Moms for America President, Kimberly Fletcher, Joins The People's Convoy

Springfield, Illinois (Feb. 28, 2022) Kimberly Fletcher, President and Founder of Moms for America (MFA) today joined The People's Convoy, a peaceful and unified movement, which originally launched from Southern California on February 23.

The **Moms for America Freedom Truck**, driven by a truck driver, Mary, who is also a mom, will drive across the country as a show of support and unity with truckers and Americans from every walk of life to defend freedom. Fletcher will follow the Convoy as it makes its way from city to city, stopping to rally moms together in support of this historic movement.

"This is for our families our children, our freedom. This isn't about masks, it isn't about vaccines, it isn't about what happens in our classrooms. It's about freedom," said Fletcher at a recent press conference.

The message of Moms for America is simple. It's time for moms everywhere to have a voice for parental rights, medical liberty, economic freedom, and their children's education. It's time to stand with hardworking citizens, for doctors and nurses that have been silenced, for students to breathe freely, for churches to stay open and for the Constitution—the foundation of this country.

Fletcher added, "We're traveling the highways for freedom for future generations!"

The **Moms for America Freedom Truck** plans to travel with the convoy, while making stops along the way at Rally Points where they will speak to moms across the country, encouraging them to join in the fight for freedom. They will then make their way to Washington D.C. where the route will end with a press conference and freedom rally on March 8.
